WEEKLY ACTIVITIES AND STATUS REPORT FOR THE DD/ICS--21 August 1985

CIPC Organizational Activities

- The DCI signed a memorandum to the NFIC forwarding the International Narcotics Follow-up Report for its information and use as appropriate.
- The DCI also signed a memorandum approving the Terrorism Study for implementation by the NFIC. On the routing and record sheet, the DDCI labeled the report as useful.
- 25X1 ● Your memoranda to Charlie Allen [] and to CIPC members on intelligence problems have been dispatched.
- Steve has begun his orientation/courtesy calls. To date, he has visited with the Admiral, a number of senior IC Staff colleagues, and several CIPC members.
- Rich received his IC Staff and CIA badges after two days of orientation at CIA headquarters.
- Ray has departed for two weeks at Harvard, and Paul will be handling his Executive Secretary chores during his sojourn.
- We are down to a skeleton crew this week as a number of staffers are taking vacations before summer ends. This will not present a problem, because we have not scheduled a CIPC meeting for August, and most of our studies are completed or well in hand.

25X1 BMD Follow-up Study: []

- The BMD Working Group's report is in the final stage of preparation. Mel saw no need for a coordination meeting, and therefore, did not call one last week. Rich now has adequate responses from all entities tasked in the original CIPC report. All comments and/or concurrences are due by 23 August. So far Rich has received coordination from DOE, Air Force, and NSA. The latter provided some very useful comments.

WEEKLY ACTIVITIES AND STATUS REPORT FOR THE DD/ICS--21 AUGUST 1985

25X1 Mobile Missile Panel: [REDACTED]

- 25X1 ● The Mobile Missile Study is being revised slightly to take into account the formal CIA reservation, which [REDACTED] said was in the mail. He indicated that it looked just like OSWR's but with a new covering memo.
- 25X1 ● The last two Mobile Missile Panel meetings have been devoted largely to listening to ACIS representatives. [REDACTED] deputy, attended the 15 August session, and Doug came to the panel meeting on the 20th. Basically, the message is that ACIS does not want the panel to do a follow-on report dealing with arms control. [REDACTED] in coordination with the NIO/SP, has prepared a memo to the DCI via D/ICS (a draft copy is attached) requesting that the tasking of the CIPC Mobile Missile Panel for a follow-on study on arms control be rescinded. Doug has requested comments on his draft from [REDACTED]. In addition, Ed will table a proposed memo from the panel at its next meeting on 22 August. We will, in turn, prepare an endorsement to George's memo for the D/ICS. Steve believes it would be useful for he and [REDACTED] to get together with you before that meeting, and have requested time on your Thursday calendar. 25X1
- In the meantime, the panel will be losing a real asset with the pending retirement of State's representative, Bill Deary. Although he will not officially retire until January 1986, he has been assigned to State's Historian's office. Replacing Bill Deary on the panel, should it proceed with arms control, is Dave Nichols. For other matters, Mike Egbert, who had been State's alternate and attended several meetings, will be Bill's replacement.

25X1 Attachment: As stated [REDACTED]

~~SECRET~~ [REDACTED]EXTRACT FROM DCI MEMO REGARDING OFF-SITE CONFERENCE5. Mobile Missiles. (S)

Item: The CIPC Mobile Missile Study has been completed, and the best way to take necessary follow-on steps must be identified. Additionally, it is clear that there are a number of potential similarities in methodology and approach that should be shared among mobile missile, space, submarine, and other analysts faced with relocatable targets. Innovative analytical methods may help resolve difficult aspects of the mobile missile issue, and an effort should be made to encourage a cross-Community approach to the problem. In addition to the national agencies, Navy and Air Force (SAC) have particular roles to play.

* Action: The CIPC Mobile Missile Panel, working with the arms control community, will review the specific measures which the Intelligence Community could and should take against the various arms control policy options. *

Action: The Director of Naval Intelligence should work with the Assistant Chief of Staff for Intelligence, USAF, to examine whether the analytical methods [REDACTED]
